

DATE: 05/30/2012

TIME: 10 a.m.

In the OGR Community Center located directly behind the OGR Library...

Ever wonder what's awake when your asleep?
The Nature's Nightlife program provides a fun, but educational, interactive and safe learning experience that features 5 Nocturnal Animals from all over the world. Learn how animals see, hear and maneuver in the dark mastering their role as the hunter or the hunted. Participants will be asked to interact with the animals through question & answer, audience participation and "hands-on" volunteering. All are guaranteed an up-close and personal experience!
